

01/2024 – 03/2024 [memodo](#) | [Memodo GmbH](#)

Objective of the project	development of a multi-tenant ordering portal for photovoltaics
Responsibility	backend development
Purview	feature implementation
Technologies	PHP 8.1, REST, PHPUnit 7, Git, MySQL 5.7, Composer, Docker, Alpine Linux, Xdebug 3, Postman, PhpStorm, GitLab, Jira, Confluence, Scrum
Team size	5-12

09/2023 – 12/2023 [memodo](#) | [Memodo GmbH](#)

Objective of the project	development of a multi-tenant ordering portal for photovoltaics
Responsibility	backend development
Purview	feature implementation
Technologies	PHP 8.1, REST, PHPUnit 7, Git, MySQL 5.7, Composer, Docker, Alpine Linux, Xdebug 3, Postman, PhpStorm, GitLab, Jira, Confluence, Scrum
Team size	5-12

01/2023 – 03/2023 [Tickeos](#) | [eos.uptrade GmbH](#) / [Siemens Mobility](#)www.tickeos.de

Objective of the project	maintaining and further development of a multi-tenant system and services for route planning and ticketing of the local traffic
Responsibility	backend development
Purview	feature implementation
Technologies	PHP 7.4, PHP 8.2, Symfony 1, Symfony 5.4, Propel, Doctrine 2, REST, PHPUnit 7, Git, MySQL 5.7, Composer, Docker, Alpine Linux, Xdebug 3, PHPStan, Postman, Jenkins, Graylog, AWS, Kubernetes, PhpStorm, BitBucket, Jira, Confluence, Scrum
Team size	5-15

01/2022 – 12/2022 [Tickeos](#) | [eos.uptrade GmbH](#) / [Siemens Mobility](#)www.tickeos.de

Objective of the project	maintaining and further development of a multi-tenant system and services for route planning and ticketing of the local traffic
Responsibility	backend development
Purview	feature implementation
Technologies	PHP 7.4, Symfony 1, Symfony 4.4, Symfony 5.4, Propel, Doctrine 2, REST, PHPUnit 7, Git, MySQL 5.7, Composer, Docker, Alpine Linux, Xdebug 2, Xdebug 3, PHPStan, Postman, Jenkins, Graylog, AWS, Kubernetes, PhpStorm, BitBucket, Jira, Confluence, Scrum, Kanban
Team size	5-15

07/2021 – 12/2021 Tickeos | eos.uptrade GmbH / Siemens Mobility

www.tickeos.de

Objective of the project	maintaining and further development of a multi-tenant system and services for route planning and ticketing of the local traffic
Responsibility	backend development
Purview	feature implementation
Technologies	PHP 7.4, Symfony 1, Symfony 4.4, Propel, Doctrine 2, REST, PHPUnit 7, Git, MySQL 5.7, Composer, Docker, Alpine Linux, Xdebug 2, Xdebug 3, PHPStan, Postman, Jenkins, Graylog, AWS, Kubernetes, PhpStorm, BitBucket, Jira, Confluence, Scrum
Team size	5-15

07/2021 – 12/2021 Data Integration | Aperto GmbH / IBM iX Berlin GmbH

Objective of the project	data converting in a heterogeneous system, consisting of Salesforce, Acoustic, and TIBCO Cloud / Scribe
Responsibility	data transfer management
Purview	Implementation of data converting, primarily in TIBCO Cloud, TIBCO Scribe
Technologies	SalesForce, Acoustic, TIBCO Cloud, TIBCO Scribe
Team size	2

06/2021 QUANTREFY | QUANTREFY GmbH

www.quantrefy.com

Objective of the project	creating of a real estate analysis and assessment service platform
Responsibility	backend development
Purview	feature implementation
Technologies	PHP 7.4, Symfony 5.2, Doctrine 2, Git, MySQL 5.7, Composer, Docker, Alpine Linux, Xdebug 3, PhpStorm, BitBucket, Jira, Confluence
Team size	3

01/2021 – 03/2021 Content Management Application for Volkswagen | ISA GmbH / Silpion IT-Solutions GmbH

Objective of the project	creating of a shop and content management application for Volkswagen Financial Services
Responsibility	backend development
Purview	feature implementation
Technologies	PHP 7.4, Symfony 4.4, REST, API Platform 2, Sylius 1.8, Doctrine 2, Git, MySQL 5.7, Composer, Docker, Ubuntu, Alpine Linux, Xdebug 3, PhpStorm, GitHub, Jira, Confluence, Postman, Insomnia
Team size	7

08/2020 – 12/2020 KIK | ISA GmbH

www.kik.de

Objective of the project	further development of an online shop, Klarna Payment integration
Responsibility	backend development, technical conception, data modeling
Purview	feature implementierung, conception, coordination / management, and implementation of the payment integration
Technologies	PHP 7, Symfony 3, Doctrine 2, UML 2, Git, MySQL 8, ArangoDB, Composer, Jenkins, Docker, Ubuntu, Ubuntu, PhpStorm, Xdebug, GitLab, draw.io, MySQL Workbench, Rancher, Postman, Insomnia
Team size	12

01/2020 – 06/2020 AutoFIT | DB Systel GmbH

Objective of the project	further development of a platform for ordering of file transfer services
Responsibility	backend development, frontend development, deployment, employee training
Purview	migration of the application, feature implementing, integration / controller testing, CI pipeline
Technologies	PHP 7, Laminas, Doctrine 2, PHPUnit 6, Git, MySQL 5.6, OAuth2, OpenID Connect, HTML5, CSS3, LESS, Bootstrap 3, JavaScript, jQuery 2, jQuery UI, Composer, gulp, Jenkins, Jenkins Pipelines, PHP Quality Assurance Tools, VirtualBox, Ubuntu, SUSE Linux Enterprise Server, PhpStorm, Xdebug, MySQL Workbench, GitHub

2019

06/2019 – 12/2019 AutoFIT | DB Systel GmbH

Objective of the project	further development of a platform for ordering of file transfer services
Responsibility	backend development, frontend development, deployment, employee training
Purview	migration of the application, feature implementing
Technologies	PHP 7, Zend Framework 3, Laminas, Doctrine 2, PHPUnit 6, Git, MySQL 5.6, OAuth2, OpenID Connect, HTML5, CSS3, LESS, Bootstrap 3, JavaScript, jQuery 2, jQuery UI, Composer, gulp, bower, Jenkins, PHP Quality Assurance Tools, Xdebug Profiler, Webgrind, siege, VirtualBox, Ubuntu, SUSE Linux Enterprise Server, Microsoft Windows Server 2008, Microsoft IIS 7, PhpStorm, Xdebug, MySQL Workbench, GitHub

01/2019 – 07/2019 ABOUT YOU | ABOUT YOU GmbH

www.aboutyou.de

Objective of the project	further development of a platform for ordering of file transfer services
Responsibility	backend development
Purview	feature implementing, further development of REST APIs
Technologies	PHP 5.6, PHP 7.2, Silex, Lumen, Yii, Analogue ORM, Phinx, MySQL, MongoDB, Redis, REST, Git, Bitbucket, PhpStorm, Xdebug, Composer, Gitflow, VirtualBox, Vagrant, Debian, Jira, Kibana, Scrum
Team size	18

2018

11/2018 – 12/2018 Customer information panels for Mercedes-Benz car dealerships | wycomco GmbH

Objective of the project	prototype project for optimization of customer information and communication in car showrooms
---------------------------------	---

Responsibility	further development of the REST-API
Purview	feature implementing, further development of the REST API
Technologies	PHP 7.2, Laravel 5, Eloquent 5, Git, PostgreSQL 10, REST, PhpStorm, Xdebug, Composer, Gitflow, GitLab, VirtualBox, Ubuntu
Team size	4

01/2018 – 11/2018 FP Sign | FP InovoLabs GmbH

www.fp-sign.com

Objective of the project	web interface (web application and API) for digital signing
Responsibility	further development of the web application and REST API
Purview	feature implementing, debugging, further development of the and REST API
Technologies	PHP 5.6, Symfony 3, PHPUnit 5, Git, MariaDB 5.5, REST, WPN-XM, PhpStorm, Xdebug, Composer, Doctrine 2, PHP-DI, Swagger, OpenAPI, Twig, JavaScript, jQuery, TypeScript, Angular 6, Scrum, Redmine, CodeBeamer
Team size	8

2017

08/2017 – 12/2017 FP Sign | FP InovoLabs GmbH

www.fp-sign.com

Objective of the project	web interface (web application and API) for digital signing
Responsibility	SOAP API, integration tests
Purview	maintenance of the SOAP API, integration tests, documentation
Technologies	PHP 5.6, PHPUnit 5, Git, MariaDB 5.5, SOAP, WPN-XM, PhpStorm, Xdebug, Composer, Doctrine 2, PHP-DI, Scrum, Redmine, CodeBeamer
Team size	7

03/2017 – 12/2017 AutoFIT | DB Systel GmbH

Objective of the project	further development of a platform for ordering of file transfer services
Responsibility	backend development, frontend development, deployment, employee training
Purview	requirements analysis, implementing, continuous integration, migration of the application to Zend Framework 3, migration of the DAL to Doctrine 2, elaboration use / test cases and implementing of integration test
Technologies	PHP 7, Zend Framework 2, Zend Framework 3, Doctrine 2, PHPUnit 6, Git, MySQL 5.6, HTML5, CSS3, LESS, Bootstrap 3, JavaScript, jQuery 2, jQuery UI, Composer, gulp, bower, Jenkins, PHP Quality Assurance Toolchain, Xdebug Profiler, Webgrind, siege, VirtualBox, Ubuntu, Microsoft Windows Server 2008, Microsoft IIS 7, PhpStorm, Xdebug, MySQL Workbench, GitHub

2016

12/2016 – 07/2017 FP Sign | FP InovoLabs GmbH

www.fp-sign.com

Objective of the project	web interface (web application and API) for digital signing
Responsibility	backend development, SOAP-API

Purview	planing and implementing of a SOAP API
Technologies	PHP 5.6, Symfony 3, PHPUnit, Git, MariaDB 5.5, SOAP, WPN-XM, PhpStorm, Xdebug, Composer, Doctrine 2, PHP-DI, MySQL Workbench, Scrum, Redmine, CodeBeamer
Team size	9

01/2016 – 11/2016 AutoFIT | DB Systel GmbH

Objective of the project	plattform for ordering of file transfer services
Responsibility	technical concept, database design, backend development, frontend development, deployment
Purview	requirements analysis, architecture, implementing, continuous integration
Technologies	PHP 7, Zend Framework 2, PHPUnit 5, Git, MySQL 5.6, HTML5, CSS3, LESS, Bootstrap 3, JavaScript, jQuery 2, jQuery UI, Composer, gulp, bower, Jenkins, PHP Quality Assurance Toolchain, Xdebug Profiler, Webgrind, siege, VirtualBox, Ubuntu, Microsoft Windows Server 2008, Microsoft IIS 7, Eclipse, Zend Studio, Xdebug, MySQL Workbench, Microsoft Visio, GitHub

2015

05/2015 – 08/2015 mobilversichert.de | Munich General Insurance Services GmbH

www.mobilversichert.de

Objective of the project	completion of a backoffice application for policy dealers
Responsibility	database design, backend development, frontend development
Purview	features implementing, bug fixing
Technologies	PHP 5.6, Yii, CSS, Git, MySQL, VirtualBox, Debian, Eclipse, Zend Studio, Jira
Team size	4

04/2015 – 09/2015 JUUNA API | vitapublic GmbH

Objective of the project	REST based API for the JUUNA Mobile App and external partners
Responsibility	backend / API development
Purview	implementing / backend development, participation in the creating of the technical concept, performance optimization
Technologies	PHP 5.6, Zend Framework 2, Apigility, REST, Doctrine 2, PHPUnit, Git, MySQL, Xdebug, Xdebug Profiler, Webgrind, XHProf, siege, Parse, VirtualBox, CentOS, Eclipse, Zend Studio, MySQL Workbench, Redmine
Team size	5

2014

12/2014 – 04/2015 ryleev.ru | Anton Ryleev

www.ryleev.ru

Objective of the project	redevelopment of the designer Anton Ryleev's homepage
Responsibility	database design, backend development, frontend development
Purview	participation in the creating of the concept, the complete technical implementation (backend and frontend)
Technologies	PHP 5.6, Zend Framework 2, Apigility, Xdebug, REST, Bootstrap, LESS, AngularJS,

Composer, gulp, Grunt, bower, Git, MySQL, VirtualBox, Eclipse, Zend Studio

Team size 2

09/2014 – 11/2014 [competitionline | secu-ring GmbH](#)

www.competitionline.com

Objective of the project further development of a competitions and tenders portal

Responsibility backend development

Purview Implementing of small features, bug fixing

Technologies PHP 5.5, Zend Framework 1, Zend Framework 2, Doctrine 1, Doctrine 2, REST, Apigility, PHPUnit, Xdebug, LESS, Git, MySQL, VirtualBox, Vagrant, Eclipse, Zend Studio, PHPStorm

Team size 5

07/2014 – 09/2014 [Collins / ABOUT YOU | ABOUT YOU GmbH](#)

www.aboutyou.de

Objective of the project development of an online shop for outfit and fashion

Responsibility backend development

Purview Implementierung kleinerer Features, Bugfixing

Technologies PHP 5.4, Yii, PHPUnit, Xdebug, Sass, Composer, bower, Debian, MacOS, Git, Eclipse, Zend Studio, MySQL, VirtualBox, Vagrant, Jira

Team size 12

06/2014 [gido | gido Deutschland GmbH](#)

www.gido-database.com

Objective of the project development of a portal for indication of source of groceries

Responsibility backend development

Purview PHP 5.4, implementation of a payment system (PAYMILL), parsing of structured text documents, further development of the system

Technologies PHP, CakePHP 2, CakePHP ORM 2, Xdebug, XML, XPath, SVN, Eclipse, Zend Studio, MySQL

Team size 6

03/2014 – 6/2014 [Popunder | Popunder Ltd.](#)

www.popunder.de

Objective of the project establishment of a CPC / CPM platform in the german-speaking internet

Responsibility project management

Purview project management, planing and realization of marketing activities

Technologies Google Analytics, Google AdWords, TDS-Tools

Team size 11

2013

06/2013 – 12/2013 [Semigator Seminar Management | Semigator GmbH](#)

Objective of the project	development of a RESTful application for search and management of seminars
Responsibility	backend development
Purview	application architecture, implementation of the server parts
Technologies	PHP 5, Zend Framework 2, REST, PHPUnit, Xdebug, Xdebug Profiler, XML, PHP DOM, SVN, Eclipse, Zend Studio, MySQL, Redmine, Kanban
Team size	10

05/2013 – 12/2013 [Semigator Portal | Semigator GmbH](#)

www.semigator.de

Objective of the project	further development of a portal for continuing education
Responsibility	backend development
Purview	Updating of the platform, implementing of features
Technologies	PHP, CodeIgniter, Xdebug, SVN, Eclipse, Zend Studio, MySQL, Redmine, Kanban
Team size	14

02/2013 – 05/2013 [unisportr | IT&T Ltd.](#)

www.unisportr.com

Objective of the project	Development of a web platform for college sports
Responsibility	technical project management, backend development
Purview	migration from von Joomla! to Zend Framework 2 and further development
Technologies	PHP 5, Zend Framework 2, PHPUnit, Xdebug, MySQL, Git, Eclipse, Zend Studio
Team size	3

2012

05/2012 – 09/2012 [Linio Mexico | Rocket Internet GmbH](#)

www.linio.com.mx

Objective of the project	development of an online shop / marketplace in Mexico
Responsibility	backend development, frontend development
Purview	further development of the shop
Technologies	PHP 5, Zend Framework 1, Yii, Xdebug, JavaScript, jQuery, Kanban, SVN, Eclipse, Zend Studio, Jira
Team size	5

07/2012 – 09/2012 [Linio Venezuela | Rocket Internet GmbH](#)

www.linio.com.ve

Objective of the project	development of an online shop / marketplace in Venezuela
Responsibility	backend development, frontend development
Purview	further development of the shop
Technologies	PHP 5, Zend Framework 1, Yii, Xdebug, JavaScript, jQuery, Kanban, SVN, Eclipse, Zend Studio, Jira
Team size	5

05/2012 – 09/2012 Linio Colombia | Rocket Internet GmbH

www.linio.com.co

Objective of the project	development of an online shop / marketplace in Colombia
Responsibility	backend development, frontend development
Purview	further development of the shop
Technologies	PHP 5, Zend Framework 1, Yii, Xdebug, JavaScript, jQuery, Kanban, SVN, Eclipse, Zend Studio, Jira
Team size	5

05/2012 – 09/2012 Linio Peru | Rocket Internet GmbH

www.linio.com.pe

Objective of the project	development of an online shop / marketplace in Peru
Responsibility	backend development, frontend development
Purview	further development of the shop
Technologies	PHP 5, Zend Framework 1, Yii, Xdebug, JavaScript, jQuery, Kanban, SVN, Eclipse, Zend Studio, Jira
Team size	5

2011

09/2011 – 05/2012 Bonsport | Rocket Internet GmbH

www.bonsport.ru

Objective of the project	development of an outdoor and sports online shop in Russia
Responsibility	backend development, technical project management
Purview	integration of a payment API (Payoline), system migration, (from 02/2012) project management
Technologies	PHP 5, Zend Framework 1, Xdebug, Scrum, SVN, Eclipse, Zend Studio, Jira
Team size	12

01/2011 – 03/2012 HelloFresh | Rocket Internet GmbH

www.hellofresh.de

Objective of the project	development of a delivery service
Responsibility	frontend development, backend development
Purview	Development in the in der final phase before the launch
Technologies	PHP 5, Zend Framework 1, Yii, Xdebug, SVN, Eclipse, Zend Studio, Jira
Team size	5

12/2011 – 01/2012 Rocket Internet Shop | Rocket Internet GmbH

Objective of the project	further development of an inhouse shop system
Responsibility	backend development
Purview	implementation of web tracking
Technologies	PHP 5, Zend Framework 1, Yii, Xdebug, SVN, Eclipse, Zend Studio, Jira

Team size 8

10/2011 – 12/2012 Mebelrama | Rocket Internet GmbH

www.mebelrama.ru

Objective of the project	development of an online shop for furniture
Responsibility	backend development
Purview	integration of a payment API (Moneta)
Technologies	PHP 5, Zend Framework 1, Xdebug, Scrum, SVN, Eclipse, Zend Studio, Jira
Team size	12

08/2011 N.pl | BerLinux Solutions GmbH

www.n.pl

Objective of the project	redevelopment of a TV portal
Responsibility	implementaion of the frontend
Purview	frontend changes
Technologies	Ubuntu, Git, Eclipse, Joomla! Framework, Joomla! CMS, Photoshop

10/2010 – 09/2011 TVdirekt | BerLinux Solutions GmbH

www.tvdirekt.de
www.gong.de
www.bildundfunk.de
www.supertv.de
www.tvpiccolino.de
www.tvsudoku.de
www.tvkochen.net
www.tv4x7.de
www.nurrtv.de
www.tv4wochen.de
www.die2.de
www.tvfuermich.de

Objective of the project	further development of the web portals of the TVdirekt online group
Responsibility	implementation (backend and frontend)
Purview	development of Joomla! modules; development of and changes at Joomla!-components; development of GUI for the editors; frontend development / layout changes PHP 5, HTML, CSS, JavaScript, AJAX, jQuery, Joomla! Framework, SQL, MySQL, Ubuntu, Git, Eclipse, Photoshop
Team size	4

02/2011 – 06/2011 RTV | BerLinux Solutions GmbH

www.rtv.de

Objective of the project	development of a TV portals
Responsibility	backend development, frontend development (primarily components and modules for the Joomla! Framework)
Purview	development of Joomla! modules; development of and changes at Joomla!-components; development of GUI for the editors; frontend development / layout changes
Technologies	PHP 5, HTML, CSS, JavaScript, AJAX, jQuery, Joomla! Framework, SQL, MySQL, Ubuntu, Git, Eclipse, Photoshop

Team size 4

03/2011 Son Cubano

www.son-cubano.com

Objective of the project JavaScript / jQuery toy. Development of a mini website for jQuery based presentation of YouTube Videos of cuban son.

Responsibility frontend

Purview JavaScript development

Technologies PHP 5, HTML, CSS, JavaScript, jQuery, Eclipse

Former projects

2010 KillYourJob | IT&T Ltd.

www.killyourjob.eu

Objective of the project Development of a platform virtual assistants

Responsibility backend development, frontend development

Purview participation in the creating of the concept, backend development, frontend development

Technologies PHP 5, Zend Framework, HTML, CSS, Eclipse, SVN

Team size 2

2009 IBC Berlin | Tillsoft

www.ibc-berlin.com

Objective of the project development of the homepage of IBC Berlin GmbH

Responsibility complete implementation incl. the frontend and MODx CMS

Purview frontend, MODx development

Technologies MODx CMS, PHP 5, HTML, CSS, Eclipse

2005 KEC „Die Haie“ | maXbenefit GmbH

www.kecdiehaie.de

Objective of the project development of the homepage of KEC „Die Haie“ e.V.

Responsibility complete implementation

Purview TYPO3 / TypoScript backend development, frontend

Technologies PHP 4, HTML, CSS, JavaScript, TYPO3, TypoScript

Team size 3

2004 romion | Roman Nedzvetskyy

www.romion.de

Objective of the project development of the homepage of Roman Nedzvetskyy

Responsibility complete implementation

Purview TYPO3 development, layout, image editing

Technologies PHP, HTML, CSS, JavaScript, TYPO3, TypoScript

2002 Ne Goni | Ne Goni Ltd.

www.ne-goni.ru

Zielsetzung des Projekts	development of the homepage of the restaurant „Ne Goni“
Verantwortungsbereich	complete implementation
Aufgabenbereich	layout, image editing
Eingesetzte Technologien	HTML, CSS
Team size	2

20th of July 2024
